

Anthropic Financial Summary, 2021–2025

Funding, revenue, expenses and losses by year · compiled October 7, 2026

Funding and operating results (US\$)

Year	Funding raised	Revenue	Compute & infra	Other opex	Total opex	Operating loss	Net loss
2021	\$124M	n/d	n/d	n/d	n/d	n/d	n/d
2022	\$580M	n/d (~\$10M est.)	n/d	n/d	n/d	n/d	n/d
2023	~\$2.6B closed	n/d (~\$100M annualized)	n/d	n/d	n/d	n/d	n/d
2024	~\$7.5B	\$386M	~\$2.5B	~\$0.85B*	~\$3.37B*	\$2.98B	\$8.31B
2025	~\$20B closed + up to \$15B committed	\$4.59B	\$7.33B	~\$5.32B*	\$12.65B	\$8.06B	\$41.97B

Income by year (2024–2025, the only years disclosed)

Notes. All figures in US dollars. n/d = not disclosed; Anthropic has not published financials for 2021–2023. 2024–2025 figures come from Anthropic's confidential IPO draft as reviewed and reported by Reuters (Sept. 28, 2026); the filing is not public. *Derived: total opex = revenue + operating loss; other opex = total opex – compute.

Funding by year. 2021: Series A. 2022: Series B (largely FTX). 2023: Google (~\$300M, Feb; \$500M of a \$2B deal, Oct), Series C \$450M, SK Telecom \$100M, Amazon \$1.25B. 2024: Menlo-led Series D ~\$750M, Amazon \$2.75B and \$4B. 2025: Google \$1B, Series E \$3.5B, \$2.5B debt facility, Series F \$13B; Microsoft/Nvidia up to \$15B (Nov).

Net loss. About \$34B of the 2025 net loss is a non-cash charge on financing convertible into shares; the operating loss better reflects the cost of running the business. Early-year revenue figures are run-rate or third-party estimates, not booked revenue.
